YouTube Safety Update: New Parental Controls

YouTube have published their latest update on how parents can support their child on YouTube. YouTube will now allow parents to set the amount of time viewing Shorts – this can even be set to zero. YouTube Shorts are short videos, usually less than 60 seconds long, which when continuously watched, can lead to excessive screentime. Furthermore, parents will also be able to set bedtime and ‘take a break’ reminders. You can find out more here:

Mobile phones: do you know the risks?

We know that children having access to a smartphone can expose children to risks including:

- Viewing inappropriate content
- Excessive screen time/use, which in turn can affect their mental health and sleep pattern.
- Contact from inappropriate people/grooming
- Cyberbullying
- Spending money on in-app purchases/scams

What effects do mobile phones have on children’s mental health?

Compass discuss the research around this important topic, outlining the positive and negative effects that mobile phones have:

<https://compass-uk.org/services/compass-changing-lives/online-resources/what-effects-do-mobile-phones-have-on-children-and-young-peoples-mental-health/>

EE Online Safety Hub

EE has published age guidance for smartphone usage to improve children’s digital wellbeing. In summary, they recommend that children under 11 should use non-smart devices, for children aged 11-13, they advise that if a smartphone is used, then parental controls should be enabled and access to social media restricted. Finally, for 13-16-year-olds they still recommend that parental controls are implemented and appropriate restrictions set up. You can read the full guidance here:

<https://ee.co.uk/internet-online-safety>

Could you delay when your child is given a smartphone with Smartphone Free Childhood?

The premise behind this movement is that all parents/carers of a class all agree not to give their children smartphones (therefore the level of peer pressure is reduced) for a set time or until a specific age:
